Education

2016-2020 (Graduated)

Games and Interactive Media Design

Bachelor of Arts

U-Tad Madrid

2014-2015 (Not Graduated)

Advertising / PR / Marketing

Bachelor of Arts

ESIC Madrid

Expertise

- Game Design
- Technical Design
- Systems Design
- Unreal Engine
- Unity
- Scripting (C# / UE Blueprints)
- Git

Language

English (C2 - Proficient)

Spanish (Native)

Jorge León Elías

Game Designer

4 years in AA and indie space in various design roles, specialized in scripting using Unreal Engine blueprints.

- 🐱 Endling: Extinction is Forever - BAFTA Winner (Herobeat Studios)
- 🔨 Project Survive (CI Games - Underdog Studio: Unannounced Project)

<< SKILLS >>

- Game Design (documentation, balancing, pacing, system & mechanics design).
- Scripting (gameplay ability system, prototyping, implementation, events, cinematics/sequencer, FPP and TPP combat implementation).
- AI Design (finite state machines, behaviour trees, environment query system).
- Narrative design (environmental story telling, game events, quest systems).

Experience

09/2023 - Present

CI Games - Underdog Studio

Systems Game Designer

- Game Mechanics and System design, prototyping and implementation.
- Project documentation.
- Combat/Weapon implementation, Quest system implementation.
- Unannounced project: **Project Survive** (Unreal Engine 5).

08/2021- 09/2023

Herobeat Studios

Principal Game Designer 07/2022 - 09/2023

- Game concept creation and documentation.
- Combat design.
- Level design, emphasizing on Combat spaces.
- Mentoring.
- Developed project: Unannounced Project (Unreal Engine 5).

Technical Game Designer 08/2021 - 07/2022

- Game Mechanics and System design, prototyping and implementation.
- Balancing and pacing tuning.
- Implementation of in-game events (Environmental Storytelling).
- Cinematic scenes creation & tweaks.
- Project documentation.
- Pre / Post launch bug fixing.
- Developed project: Endling Extinction is Forever (Unreal Engine 4) **BAFTA** winner.

06/2021 - 08/2021

5th Element Gaming

Game Programmer

- Mechanics implementation.
- Tools creation.
- Systems implementation (**in-game store, progression unlockables**).
- Code optimization.
- Google Play services integration.
- Developed projects: Pencilmation Arkanoid (Unity).

Skills

Design

- Documentation
- Balancing
- Prototyping
- AI design
- Narrative

Scripting

- Mechanics & Systems implementation
- Gameplay Ability System
- AI Behaviour Trees
- Environment Query System

Software

- Confluence
- Blender / UE Modelling Tool
- Quixel Mixer
- Git / P4
- Adobe Photoshop
